EMERGENCY ARRANGEMENTS IN BANGALORE CITY.

1. WATER SUPPLY: In the event of a break down of the water-supply arrangements of the City, owing to air raids or other enemy action, alternative sources of supply to the City will have to be provided. With this end in view, all private wells in the City will have to be re-opened and cleaned up. The Municipal Commissioner has started this work and a number of wells in private houses have already been re-opened. New wells will have to be put down wherever necessary. It is understood that the Water-supply Department can make alternative arrangements for the supply of about one million gallons of water per day. Among other arrangements for augmenting the water-supply to the City, increasing the storage in Sampige and Kempambudi Tanks may be considered. The Dharmambudi tank has been drained. It is understood that it is possible to store some water in this tank also. This requires further investigation by the Public Works Department and if it is found possible, it is desirable to take timely action in this behalf before the rains set in.

2. ESSENTIAL SERVICES: From experience elsewhere, it is almost certain that of all the Essential Services, the Conservancy Staff of the Municipality will be the first one to break down in an emergency. It has been suggested that atleast 25% of the staff should be housed outside the target area and brought into the City for work and fed here while on duty and sent back to the Camps in the evening. There are about 800 sweepers in the Municipality. It is proposed

proposed to accommodate about 300 of them in convenient places just outside the City. The Sub Division Officer, Bangalore, in consultation with the Health Officer, - Bangalore City, has selected the following places for housing the sweepers:-

- i. S.No.53, Gundu Thope, Jaraganahalli village on the Kenkanhalli Road - 23 acres and 31 guntas.
- ii. Jarakabande kaval near Kethamaranahalli limits by the side of the Pipe line; and
- iii. Government waste land near the fifth mile on the Magadi Road.

The area selected comprises Government lands and at each of these places, accommodation can be provided for one-hundred sweepers. The Municipality will have to put up huts for them in these areas. The Municipal Commissioner is already taking action in this behalf. It is necessary that the arrangements should be completed very early.

Similar arrangements will have to be made for other essential services such as the Police. The Police Department will have to take action in this respect.

3. EVACUATION: It is expected that immediately after an air raid, there will be a mass emigration of the people from the City. Such of those who have friends in villages, will naturally find shelter with them. It is necessary to provide some accommodation for those who have no places to go to or who have no friends or relatives with whom they can live temporarily. For the temporary accommodation of such evacuees, the following Chetrams and other places have been selected:-

Tumkur Road:

- | | | |
|------------------------|--------|---------------|
| i. Yeswantpur Chetram. | 5 Mls. | 5,000 people. |
| ii. Desarahalli " | 7 " | 5,000 " |

Dodballapur Road:

- | | | |
|---|-----|----------|
| i. Allalasandra tope
near Civil Aerodrome. | 7 " | 5,000 " |
| ii. Yelahanka Shandy
Grounds. | 9 " | 10,000 " |

Dodballapur Road:

iii. Rajankunte Chatram and tope.	15 Mls.	15,000 people.
-----------------------------------	---------	----------------

Nandidrug Road:

Chick-Jala.	12 "	10,000 "
-------------	------	----------

Mogedi Road:

Tope near Herohalli	7 "	5,000 "
---------------------	-----	---------

Mysore Road:

Kengeri Chatram with the adjoining tope.	9 "	5,000 "
--	-----	---------

Kankanhalli Road:

Banasankari Temple and Tope.	5 "	10,000 "
------------------------------	-----	----------

Bannerghatta Road:

i. Venkataswami Naidu's Chatram.	5 "	5,000 "
ii. Bannerghatta Chatram	12 "	10,000 "

Hosur Road:

i. Medivala	5 "	5,000 "
ii. Hebgothi Old T.B. and Shandy Maidan.	12 "	10,000 "

Madras Road:

i. Krishnarajapur Chatram.	8 "	5,000 "
ii. Choultry behind Krishnarajpur Railway Station.	7 "	5,000 "

		100,000 "

These places will have to be taken possession of immediately and kept ready for accommodating the evacuees. Moderate water facilities are available at these places. Arrangements will have to be made for the supply of foodstuffs, lighting and sanitation at these places.

4. EVACUATION OF CATTLE: It may become necessary to evacuate cattle also from the City. Particularly, people owning a large number of cattle would be well advised to take their cattle outside the target area, so that the supply of milk and other dairy produce to the City may not break down. It has been suggested that the cattle may be evacuated to the Forest near Bangalore.

The following State Forests have been selected for the purpose:-

- i. Melegai Valley Forest.
- ii. Mallethahalli Plantations.
- iii. Nagarabhavei New and Old Plantations.
- iv. Kencheshalli Plantation.
- v. Kodigehalli plantation.
- vi. Arkevathi Plantation or Kellurpalya.
- vii. Govindapure Plantation.
- viii. Gantigeshalli.
- ix. Bedamanevarthakavel.
- x. Thurahalli Gudde.
- xi. Soolikere Forest.
- xii. Macheshalli Plantation.
- xiii. Doresanipalya Plantation (Anekai Range).

There is water convenience at these places. The owners of cattle may be advised to take their cattle to one or the other of these places. The consent of the Forest Department will have to be obtained at once.

5. EMERGENCY FEEDING ARRANGEMENTS: It may become necessary to provide food for the poor evacuees from the City after an air raid. It is therefore proposed to earmark the following places for feeding them:-

- i. Yeswantspur Subedar Chatram.
- ii. Benasenkeri Temple.
- iii. Kengeri Naganne's Chatram.

The Sub Division Officer, Bangalore, has furnished detailed proposals on this subject. It is estimated that the cost of feeding about 10,000 people at one meal a day, will be about Rs.1,900/-. Provision may be made for the present, for feeding about 10,000 people for two days. The cost on this account will be about 5,000/-. This amount will have to be placed immediately at the disposal of the Deputy Commissioner for the purchase of the necessary foodstuffs. The Sub Division Officer, Bangalore, will be in immediate charge of this arrangement. If Government approve of this idea, immediate sanction will have to be obtained. The report

report of the Sub Division Officer, Bangalore, dated the 31st March 1942, furnishes further details.

6. FOOD-SUPPLY: The maintenance of the normal supply of food-stuffs in the City, in the event of an emergency, is one of the important measures to be taken. It is not improbable that most of the whole-salers and retail shop-keepers might shut down their shops and leave the City. This contingency must be provided for. The Malleswaram Co-operative Society, Ltd., has agreed to undertake the supply of food-stuffs to the Malleswaram Extension, Seshadripuram and Guttahalli. The Society has submitted proposals in this behalf and these are before Government. Similarly, the Basavanagudi Co-operative Society, Ltd., and the Chamaraajpet Co-operative Societies, have undertaken to cater for these Extensions. They have also submitted proposals in this matter and they are also before Government. It is very necessary that early orders should be passed on these proposals. So far as the old City is concerned, we will have to depend on three or four important and influential Mandi Merchants, possibly, the Grain Merchants' Association. After protracted discussions, four of the merchants have agreed to undertake this work in the Old City proper. They agree to maintain a sufficient stock of food grains and to open as many retail depots in the City as may be necessary. They have asked for certain concessions. These proposals have yet to be submitted to Government for orders. Most of the whole-sale dealers in food grains live in the City limits. The supply to the Civil & Military Station will also have to be made from the City. The stock of food grains to be maintained in the City should meet this demand also.

7. VIGILANCE COMMITTEES: The protection of person and property in an emergency will be a serious business.

The Police Force of the City has been recently augmented, but, this by itself, will not be sufficient to meet the situation. It is therefore proposed to organise Vigilance Committees in different parts of the City for the protection of the local people. Malleswaram has already started a - Vigilance Committee and a number of volunteers have already been enlisted. The Committee has started work in right earnest and this example has been followed in the other parts of the City also. A Vigilance Committee for the Old City has already been formed. The City has been divided into 30 Sections and two or three influential people have been appointed as leaders and they are expected to enlist as many reliable and active persons as may be necessary in each Section for Watch and Ward of the locality. The leaders selected have all been notified. An early meeting of these leaders will have to be called to discuss the further programme. For Chamarajpet, Basavangudi and Visveswarapuram, action on the same lines is being taken.

8. TALIMKHANAS: There are 20 Talimkhanas functioning in the City proper. The Proprietors of these Talimkhanas have undertaken to furnish atleast 20 to 30 members from each Talimkhana to aid the Police in times of necessity. Messrs. Annaiya, Thimmarayappa and other Yejams have undertaken to see that atleast 5 members from each Talimkhana sleep during nights at each Talimkhana, so that they may be available in an emergency. The City Superintendent of Police will work out the details, get the names of these Talimkhanas and see that the Organisations start work at once.

9. TRANSPORT POOL: It is of the utmost importance that the Civil Defence Commissioner should have under his control, sufficient motor transport to meet the needs of the Police, the A.R.P. Services and other needs which might arise in an emergency. It has been suggested that a transport pool

transport pool should be formed under the control of the Civil Defence Commissioner who will allot the transport required for the several services. Accordingly, 26 buses and 50 lorries have been ear-marked for this purpose and notices under Sub-Rule (1) of Rule 83 of the Defence of India Rules, have been issued to the owners of the vehicles thus ear-marked to register the places where the vehicles are garaged, to report immediately, the changes of addresses and to register the name and other particulars of the driver. These notices were issued only two days ago and necessary further action will have to be taken. The terms on which the vehicles will be taken over exclusively, or only when the emergency arises, will have to be settled immediately.

10. DISPOSAL OF THE DEAD: In the unfortunate event of a large number of deaths occurring, the problem of removing the dead and giving them a decent burial or cremation will become difficult. Cremation presents no difficulties. For burying the dead, sufficient accommodation will have to be provided. With this object in view, the Health Officer of the Municipality and the Sub Division Officer, Bangalore, have conducted a survey of the existing cremation and burial grounds. The Sub Division Officer, has made the following proposals in this behalf:-

"Disposal of Dead Bodies: Another most important measure to be thought about, though an unpleasant task, is the disposal of dead bodies of persons who may die in the Air Raids and in other similar circumstances. The existing burials and cremation grounds will not be sufficient for this purpose. It is therefore proposed to expand them as detailed below.-- This arrangement will involve acquisition of valuable private lands and the total cost of acquisition may come to thirty to forty thousand rupees. But since this want of space and consequent inconvenience among almost all

almost all the communities is being felt for some time past and the Municipality are prepared to spend a large amount on this scheme, a little more expenditure, in view of the present situation, cannot be helped.

i. For Hindus: (a) Near Kempambhudi tank? This is cremation ground for Hindus with a series of Platforms constructed for cremation. This does not require any extension, as the present plot can accommodate atleast 15-20 bodies to be cremated at one time. Close to this, is a Lingayat burial ground which can still hold a number of bodies. This does not require any further extension. For other Caste Hindus, apart from Hindus, a new plot has already been proposed to be acquired near Channamankara in Yediyur - Nagasandra.

(b) Henumanthapura: Here, the Cemetery was being used for both the burial and cremation. The Burial ground is filled up but there is no place to extend it in the vicinity, as all around, dwelling houses have come up. The cremation ground at this place ceased to function as such. The burial ground which is now filled up here may be shifted to a plot of ten acres in S.Nos.25 and 31 of Kethamaranahalli between the pipe-line to the North, the new road formed to Kethamaranahalli on the West, S.No.27 - tank bed of Thurkurapalya on the East and Kodihalli to the South. These are hiduvali lands of about 10 acres which may be acquired for the purpose.

(c) The present burial and cremation ground by the side of the approach road to Kethamaranahalli from Srirampur may be continued, as no extension is needed for cremation purposes and the burial ground still affords some more accommodation. If necessary, this may be extended in the adjacent Government Thope nearby.

(d) For the people of Chamarsajpet and the Mysore Road, the land adjoining Gudadehalli, hamlet of Kempapura Agrahara may be acquired. Close to this, burials are not going on and the same may be extended Westwards by acquiring about ten acres of Kempapura Agrahara lands. There is water facility in this area, as there is a stream running and this is close to the Samadhi of late Mr. Netkallappa.

(e) For the residents of Northern Extensions of Malleswaram, Seshadripuram, Srirampura and Palace Guttehalli, the plot of land in Vyalikeval to the North of the Parsee Burial Ground, an extent of ten acres may be acquired at the spot in S.No.26 and round about.

(f) For the residents of old City who are now making use of Sunkanahalli and Annipura burial grounds, proposals from the City Municipality are awaited for acquisition of about 15 acres in Adugodi limits in the South Taluk.

II. Mohammedans: For the people of Southern Extensions, a new burial ground is in use within Byrasandra limits in the South Taluk. This may be continued, as no further extension is necessary.

(b) For the residents of Chamarsajpet, Mysore Road, and Western parts of the City, the present burial ground in the limits of Bhogenahalli and City near the Punjab Trunk Factory site may be continued. If necessary, portions of Survey Numbers 6 and 7 of Bhogenahalli may be acquired.

(c) For the Muslims of Malleswaram and Sweerampuram, the plot close to the existing burial ground of about three acres belonging to one Chikkamunisemappa and others

in Kethamrannahalli limits close to the halla may be acquired.

(d) For the residents of Seshadripuram and Palace Gutthalli, an extent of about 3 acres to the West of Parsee burial ground in Vyalikaval may be acquired.

III. Christians: For the Protestants of the City and Extensions, the existing burial ground of Kerithimmanahalli affords ample accommodation and no further extension is necessary.

(b) For the Roman Catholics, the existing Cemetery in the Mysore Road is almost filled up. The plot of ground of S.No.32 of Byetarayanapura between the Ceramic Industries and the Mysore Chrome Tannery may be acquired. An extent of four acres will meet the present requirements."

If these proposals are approved, action will have to be taken immediately, to extend the burial grounds. The Municipality will have to take the initiative in this behalf.

86) An extract from the Civil Defence Dept
letter of 27th March 42 was received by the D. M.
from the Acting Assistant Resident and copy has been
sent to the D. M. to keep schemes ready on
the lines indicated. It is seen that a copy
of the letter has been sent direct to the I. G. P.
The I. G. P. has prepared a note on emergency
measures in Bangalore City, copy of which has
been sent to the D. M. for information as a sample
copy. The note provides for the evacuation
of a batch of people from Bangalore City in the
event of an emergency. The Resg. letter desires a
necessary arrangement to be made for the C. M. S.
population also as that the State might pay
eventually on a population basis.
Subd for perusal and orders as to the action
to be taken in the matter. The D. M. B. L. on 12.1.56
may be consulted.

29/4

g) This is an emergency measure
and is to be taken in the event
of a disaster.

Panic evacuation schemes.
(Civil Defence Department Circular No.136/42)

- - -

* * * *

4. At this stage it is only possible to say that in the view of the Government of India schemes should provide for the following things: -

(i) The reception of large numbers of refugees in dispersal camps on or near roads leading out of towns at various distances from 5 to 50 miles.

(ii) Arrangements at such camps for food, shelter, water sanitation, medical aid and propaganda to induce the people to return.

(iii) Arrangements, particularly at the camps nearer the towns, so that workers can, if they wish to, leave their families there while they return to their work.

(iv) Arrangements for removing such families of workers from the dispersal camps and placing them in convenient villages.

(v) Arrangements on the lines of the Famine Code for imposing work as a condition of sustenance for those who, temporarily at any rate, refuse to return to the towns.

Dated Bangalore, the 18th April 1942

Panic evacuation schemes.

SIR,

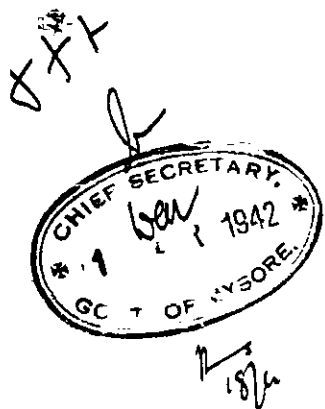

I am directed to refer to the Government of India, Civil Defence Department letter No.64/42-ARP(C.D.), dated the 27th March 1942, a copy of which has been sent by that Department direct to the Inspector General of Police in Mysore.

2. In the matter of dispersal camps, the Civil and Military Station, Bangalore, must necessarily depend upon the Mysore State. The Hon'ble the Resident understands that the Government of Mysore have plans ready for the establishment of such camps and he would be most grateful if they would kindly agree to provide additional accommodation and supplies for the Civil and Military Station for which the Station might pay eventually on a population basis. It is of course necessary to proceed with the work urgently.

3. I am to request that, if there is no objection, the consent of the Government of Mysore to the proposal may kindly be intimated to this Residency as soon as possible. A copy of the scheme prepared by the Government of Mysore may also kindly be sent.

I have the honour to be,
Sir,
Your most obedient servant,

M. S. S. S.
Secretary to the Resident.

PANIC EVACUATION SCHEME.

Sir,

With reference to your letter No.F.3(21)-42/W dated the 18th April 1942 on the above subject, I am directed to inform you that the Mysore Govt. ^{& State} agree to provide addl. accommodation ~~will make necessary arrangements for~~ and supplies for the C. & M. Station evacuees also in the dispersal camps contemplated in the event of mass evacuation, and ^{to request} that the Collector, C. & M. Station may be instructed to discuss further ~~details~~ with the Dist. Magistrate, Bangalore, ^{the} about further details, the expenditure ^{on} under this ^{amount} head being divided on population basis, as stated in your above letter.

As regards provision of camps for families of workers for longer periods, whether in the dispersal camps or in neighbouring towns or villages, ^{I am to discuss with} the C. & M. Station Collector may decide on the probable number of families requiring such arrangement for relatively longer periods and settle with the Dist. Magistrate, Bangalore, about the location of camps, putting up ^{of} special huts, or renting ~~out~~ houses in neighbouring towns, the entire expenditure being borne by the employers concerned.

To order. A copy of the scheme when prepared will be sent to you in due course.

Subject.- Movements of Population - Panic
Evacuation Scheme.

With reference to your letter No. 3178/W dated 19-1-1943, calling for certain particulars in regard to the above subject, I have the honour to state that the question of dealing with the evacuation of men and cattle enmasse in any sudden emergency that may arise out of enemy action is reported to have been considered in some detail by the Deputy Commissioner and Civil Defence Commissioner, Bangalore District, and a scheme indicating the arrangements to be made in such an emergency has been prepared. This scheme was received and approved by the Civil Defence Committee for Bangalore City constituted as per G.O. No. R.L. 1711/Legis. 2-41-94, dated 9-3-1942, at their meeting held on 15-6-1942. Copies of the scheme and the proceedings of the Civil Defence Committee referred to above have been sent to Government by the Deputy Commissioner in his letter No. CD1. 41-42 dated 22-6-42. I am sending herewith another copy of the scheme for favour of perusal and return.

The scheme prepared by the Deputy Commissioner is intended to deal with the evacuation of about 50% of the population of the City and the Civil and Military Station and to provide the evacuees with the necessaries of life for a maximum period of one month.

In regard to the point raised by the Residency in their

letter

E

letter No. F.3(21) 42/W dated 14-11-42, viz., whether instructions have been issued to all camps likely to serve

Bangalore, to receive refugees from the Civil and Military

Station also and whether arrangements are being made every

where accordingly, I enclose herein a copy of letter No. A.

7.Spl.R.1-7/41-42 dated 18-9-1942, addressed by the Deputy

Commissioner, Bangalore District, to the Collector, Civil

and Military Station, Bangalore, on the subject. It will be

seen from this letter that the Deputy Commissioner has proposed

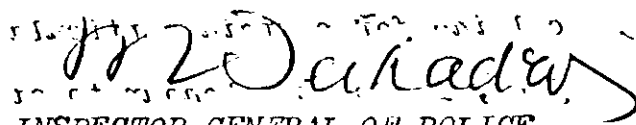

to make arrangements for the evacuees from C. & M. Station

also.

--- I have the honour to be,

Sir,

Your most obedient servant,

INSPECTOR-GENERAL OF POLICE
MYSORE.

Letter No. S7 Spl. R. 1-7/41-42 Dated 12-9-42 from the Deputy Commissioner, Bangalore District, to the Collector, Civil and Military Station, Bangalore.

.....

Subject:- Panic Evacuation Scheme.

...

With reference to your letter No. A.R.P. 4036/42-43 dated 10-9-42, enquiring whether (1) Civil and Military Station Evacuees would be admitted to the different centres selected for the feeding of evacuees (2) whether all the camps would be opened without distinction of caste or religion and (3) whether arrangements have been made for reporting the particulars of the evacuees to any Central authority, I have the honour to State as follows:-

1. The scheme is intended to provide for evacuees from Bangalore City primarily and also from Madras. The scheme envisages that out of the total population of roughly 4 lakhs both in the City and Civil and Military Station, Bangalore, it may be necessary to accommodate and feed about half that number, viz., 2 lakhs in these centres and arrangements have been made on this basis.
2. Feeding is proposed to be done on cosmopolitan lines, subject of course, to the broad distinctions of major communities, such as, Hindus, Muslims and Christians, separate arrangements being made in respect of each community.
3. The Sub Division Officers and the Amildars will be in charge of the arrangements in the centres in their respective jurisdictions assisted by certain selected officials and non-officials. The particulars of all the evacuees will be registered and reported to the Deputy Commissioner who is also the Civil Defence Commissioner of the District and under whose directions the scheme is expected to operate.
4. The expenditure incurred for feeding evacuees from the Civil and Military Station or from any place outside the Mysore State will be treated as an advance recoverable from the authorities concerned in due course.

To

The Secretary to the Hon'ble the Resident
in Mysore, Bangalore.

Sir,

Panic Evacuation Scheme.

With reference to the correspondence ending with your letter No.F.3(21)-42/W. dated 7th April 1943 on the above subject, I am directed to state that a scheme outlining the arrangements to be made for the evacuation of men and cattle from Bangalore City in an emergency has been ~~proposed~~ ^{made} by the Civil Defence Commissioner, Bangalore. It provides for accommodating and feeding ~~of~~ 2 lakhs of people, being half the population of the City and Civil & Military Station in places available within a radius of 30 miles from Bangalore. Provision has been made in the scheme for stocking rice and other essential foodstuffs in safe places through the agency of co-operative institutions and respectable merchants, and for arrangements for transport of foodstuffs during an emergency. A copy of the scheme is enclosed. It will ^{thus} be seen therefrom that the arrangements contemplated are intended to ~~secure~~ ^{serve} the evacuees from the Civil & Military station also.

I am to add that action for putting the scheme into operation will be taken ^{immediately when} ~~well in time before~~ the emergency ^{should} ~~arises~~.

I have, etc.,

W
6/5/43
Chief Secy., to Govt.

No.

Bangalore, Dated 11th May 1943.

FROM

The Chief Secretary to the Government of His Highness the Maharaja of Mysore.

To

*The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.*

Sir.

Panic Evacuation Scheme.

With reference to the correspondence ending with your letter No.F.3(21)-42/W. dated 7th April 1943 on the above subject, I am directed to state that a scheme outlining the arrangements to be made for the evacuation of men and cattle from Bangalore City in an emergency has been prepared by the Civil Defence Commissioner, Bangalore. It provides for accommodating and feeding 2 lakhs of people, being half the population of the City and Civil & Military Station in places available within a radius of 30 miles from Bangalore. Provision has been made in the scheme for stocking rice and other essential foodstuffs in safe places through the agency of co-operative institutions and respectable merchants, and for arrangements for transport of foodstuffs during an emergency. A copy of the scheme is enclosed. It will be seen therefrom that the arrangements contemplated are intended to serve the evacuees from the Civil Military station also.

I am to add that action for putting the scheme into operation will be taken immediately when the emergency should arise.

I have the honour to be
Sir,
Your most obedient servant,

11/5/43
Chief Secretary to Government.

Scy.

PANIC EVACUATION SCHEME, BANGALORE.

The following scheme for the requisitioning and transport of food stocks and distribution of food supplies is intended to meet any dis-organization of the normal arrangements for the supply of food on account of panic.

=====

In an emergency, half the population may be expected to remain in the City, but, in making arrangements for food supplies, we have to take into account, half the population of the Civil and Military Station also, as the natural outlet and place of refuge for the residents of that area will necessarily be the City. This scheme provides for providing food supplies for two lakhs of people for about a month, the total population of the City and Cantonment being 4,00,000.

2. An estimate of the food stuffs that is proposed to be stocked is given in Appendix "A" attached hereto.

It may be estimated that on an average, each individual would require half a seer of rice per day and at this rate, 30,000 pallas would be required to feed a population of two lakhs, for a month. Taking the cost of rice at Rs.20/- per palla, a sum of six lakhs would have to be spent for storing 30,000 pallas of rice. It is necessary that essential articles like ragi, Togari Dhol, Salt, Tamarind, Chillies, Kerosene, Oil, eating leaves, fuel and potatoes should likewise be stored to ensure that the population which remains in the City during the period of emergency gets essential food-stuffs though the merchants and shopkeepers leave the City in a panic.

3. The next question that arises is how these commodities have to be stored. The Co-operative Societies of Malleswaram and Basavangudi, the City Co-operative Society and Grain Merchants' Association have already agreed to stock rice with financial help from Government. As a measure of precaution, it would be necessary to store a portion of these commodities outside the vulnerable areas in the City. It seems sufficient if one-third the total quantity of 30,000 bags is stored at such places outside the City. If the institutions referred to above agree, this stock also may be held through them which means that the stocks will be under the control of the Deputy Commissioner and that the stocks will be issued out only with his consent. They should not agree to have stocks outside the City, such stocks will be under the direct custody of the Deputy Commissioner. One-third of the total quantity i.e., 10,000 pallas of rice with proportionate quantities of other essential

commodities may be thus kept outside the City and the remaining two-thirds or 20,000 in the City. The stocks may be kept as per details hereunder:-

	<u>RAGI.</u>
(1) Malleswaram Co-operative Society	5,000 bags.
(2) City Co-operative Society	5,000 "
(3) Basavangudi Co-operative Society	5,000 "
(4) Grain Merchants' Association	5,000 "
Total	.. 20,000 bags.

The conditions under which the Societies will undertake this work and the concessions required have already been approved in Government Order No. A.F. 5603-610/C.S:60-41-2 dated 9th April 1942. A recommendation has also been made by me in my letter No. A1-3913/41 dated 18-4-1942 to advance funds to these Societies on a cash-credit basis for the operation of funds through the Bank of Mysore.

4. A few respectable merchants have expressed their willingness to stock particular items of food-stuffs and distribute them to the people even in times of emergency. The following are some of the important persons who have done so :-

Messrs.	1. Kota Kamakshiah Setti,
"	2. N. Rudriah,
"	3. Haji Habeeb Ahmed Moosa,
"	4. S.K. Harasimhiah.

These merchants require police bandobust for their go-downs and transport facilities for obtaining food stuffs. Recommendation has already been made to the Director of Civil Supplies for providing adequate waggon facilities. A list of the godowns and their location and the Police force required for each place will be prepared and kept ready for detailing the required police force on short notice. This will be an additional safeguard but cannot be a dependable arrangement as there is a feeling among the public that merchants may leave the place in an emergency. No financial help is called in this case. A list of such merchants will be kept and published so that the public may know the sources of supply.

5. As already indicated, it is proposed to have a stock of 10,000 bags of rice and a proportionate quantity of the other essential food articles. The quantity of food stuffs to be kept at each of these places may be fixed as follows :-

1. Nelamangala	4,000 pallas of rice.
2. Kengeri	2,000 -do-
3. Banneraghatta	2,000 -do-
4. Banasankari temple on Kankanhalli Road.	2,000 -do-

(Doddaballapur and Hoskote Roads have been avoided as they pass through vulnerable areas). The Amildars of the respective taluks will be responsible for maintaining the stock at these places and the Police Inspectors for the transport of the food stuffs from these Depots to the Depots in the City. A list of the local lorries and buses and bullock-carts will be got prepared and ear-marked for purposes of transport. The transport charges and other incidental charges should be met out of the sum of Rs. 10,000/- placed at the Deputy Commissioner's disposal in Government Order No. 2057-67/W. Bangalore, dated 25th March 1942.

6. TRANSPORT WITHIN THE CITY -- It may be necessary in the event of a sudden depletion of stock in any one Centre or Centres in the city to secure foodstuffs from other centres. A list of lorries and Motor Cars which can be ear-marked for transport in such a situation has already been prepared. Notices have also been issued to the owners of these vehicles and the places at which, the vehicles will be garaged and the addresses of the drivers have been recorded in the Register of the Office. The Patels of the neighbouring villages, viz. Yadiyur, Adugodi, Bhairasandra etc., will be instructed to have in readiness, the allotted carts in each village and make them available at short notice. A responsibility sheet will be drawn up in this behalf. A responsible Officer will be put in charge at Headquarters to attend to all the transport arrangements in and outside the City.

7. Provision has already been made in the list noted above, for stocking potatoes at the several depots. In addition, it will be necessary to obtain a daily supply of simple vegetables from outside the City. Tenders may be called from Contractors and a list of the persons that will be able to supply them and the conditions under which, they will be able to supply will be kept ready. These will be arranged to be distributed at the institutions referred to above, if necessary, opening a separate section for this purpose. The Amildars of Devanahalli, Anekal, Closepet and Hoskote will be directed to arrange for such supplies as can be secured in those two taluks. These will be a sort of reserve in the event of a break-down of other arrangements made locally. Details are being worked out regarding the quantity available at each of the places and the circumstances in which, the supply will have to be made and the persons who will be in charge of the transport and the actual distribution.

8. As regards the supply of milk, meat and eggs, important butchers in the City and the Taluks of Doddaballapur, Devanahalli, Hoskote and Anekal will be sent for the arrangements made to ensure supplies of these commodities in the event of an emergency. Facilities for slaughter and transport will be arranged for, some Officer being told off for supervising these arrangements.

9. The Dairy owners of the City are being consulted regarding the facilities they require for keeping up supplies during an emergency. The milkmen of the City have been already approached and places selected outside the City for shifting the City cattle to safe places. The details are being worked out by the Superintendent, Civil Veterinary Department and will be completed soon. Some Retired Veterinary Officers of Malleswaram desire to organize themselves and arrange milk supply. They have been asked to give definite detailed proposals.

10. Arrangements have been already made for feeding persons rendered homeless during air raids and evacuees both in the City and outside. The available chatrams and other public buildings in the City and outside within a radius of 30 miles have been arranged to be taken over for the purpose. Suitable arrangements for supervision by Government Officers and influential members of the public have been made as also for the free gifts of food stuffs from philanthropic persons. Comprehensive and detailed proposals in regard to such Centres outside the City are under submission.

11. The Method of communicating with the personnel entrusted with the different portions of work viz. 1. Stocking, 2. Transport and 3. Distribution, is being examined. A regular responsibility sheet will be put up and given in advance to all concerned so that they may be called up without any delay for their duties. Officials of other Departments and respectable non-officials will be selected. The number selected will be sufficiently high to provide for defections in an Emergency. A list of the places where the several articles of food-stuffs and fuel that will be available in the different localities will be got printed and published. With a view to prevent over-crowding and other inconveniences, particular depots are expected to cater to particular localities only.

12. Special police arrangements to safe-guard the stocks will also be arranged for.

13. Copies of these arrangements, after completion and sanction, will be given to Superintendents of Police, Sub Division Officers, A.R.P. Controller, Municipal Commissioner and Amildars so that they may be in touch and render the necessary help.

14. FINANCE - A sum of six lakhs of rupees would be required for purchasing 30,000 pallas as already explained and 2½ lakhs of rupees for other commodities.

15. It would be necessary to take immediate action to purchase rice in the Delta area of the Madras Presidency and secure the necessary transport as it would be increasingly difficult to secure either as days advance.

Sd/ Karadanna G.

DEPUTY COMMISSIONER,
BANGALORE DISTRICT.

gvm/-
19-5-1943.

M.B. Private medical practitioners and Govt. medical and Sanitary officers who may be deputed to look after the camps will be allotted jurisdictions in due course.

Minutes of the Civil Defence Conference held at the Residency
on the 5th April 1943.

The Resident held a meeting at the Residency on the 5th April to discuss the Civil Defence Department circular letter No.D.422-A.R.P.(Poll)/43, dated the 2nd March 1943, and its implications in relation to Bangalore and Mysore. Those present at the meeting were Mr.Seshadri, Inspector General of Police representing the Government of Mysore, Major Pritchard representing Advance Headquarters, Southern Army, the Residency Surgeon, Collector and Commissioner of Police.

2. The first question asked by the Resident was whether the military authorities looked upon Bangalore as a red spot in a pink area, this being the implication of paragraph 6 of the Civil Defence Department letter under consideration, or whether they considered it definitely pink. Major Pritchard replied that Southern Army looked upon not only Bangalore but also Mysore City as Pink and recommended no fresh lighting restrictions or building programme. He said that no air raids were at all likely as Bangalore is 200 miles inland and only 'suicide' raiders could get here. The representative of the Mysore Government said that there was no desire to treat Bangalore City as "Red", much less Mysore City. Summing up this first and all-important point, the Hon'ble the Resident said that this Residency does not agree with the Civil Defence Department's suggestion in paragraph 6 of the letter under consideration and that the Government of India should be informed accordingly.

3. Schedule. The Schedule at pages 36 -44 of the file was then considered in detail, and it was left to the Collector to submit his recommendations for possible reductions in expenditure on the assumption that Bangalore would definitely be treated as pink in future. Static tanks, it was decided, must be proceeded with if the pumps already obtained for the fire service were to be of any use; and cement for these tanks would be obtained as an urge priority. Taking the items one by one, the following classification was made for Bangalore:-

1. Preliminary warning of emergency - Pink.
2. Warning system - Pink.
3. Lighting restrictions - Definitely pink.
4. Aids to movement - Rules to be abolished.
5. Structural protection - Municipal Engineer to consult Residency Surgeon regarding removal of baffle walls.
6. Building for A.R.P.Services - Pink. Collector will make his recommendation.
~~xxxxClassificationxxxxtownsxxxxPaidstaffxxxxreduced.~~
~~Thxcollectorwillxxendxx~~
~~hisproposalsxxthisxxeffectxx~~
7. Classification of towns - The Inspector General of Police, Mysore, will look into this and let us know. Classification will be pink.
8. Superior organisation - Paid staff to be reduced. The and officers. collector will send in his proposals to this effect. Higher-paid staff to be reduced as and when possible
9. Control and Report centres - No action.
10. Wardens, Communications, - Maintain wardens as at Casualty and Rescue present substituting unpaid Services. for paid wherever possible.
11. Fire Watchers and House - Same principle as for Nos.8 Fire parties. and 10.

12. A.R.P. Depots - See Nos. 8, 10 and 11 - Collector will report.
13. Corpse Disposal - Paper scheme only.
organisation
14. Care of the homeless - Nil.
15. Mobile canteens - Nil at present.
16. Reconnaissance of - No change.
UXB, and disposal
of crashed aircraft -
17. Camouflage - Not much done so far.
18. Shelters and trenches - These should not be allowed
to fill with water or fall in.
19. First Aid Posts, - The Residency Surgeon & Collec-
static and mobile. tor to discuss and to recom-
mend reductions.
20. Fire Services. - It was suggested that the fire
service might be reduced from
15 to 10 stations. Commissioner of Police observed that the
risk of fire was very heavy
now in Bangalore owing to
overcrowding and innumerable
thatched huts. However his
new scheme now nearly ready
will be cut down.
21. Static tanks - These must be proceeded with.
22. Hospital Service - No change. As for cement re- fire
ments, static tanks must have
priority over the tuberculosis
hospital.
23. Auxiliary Nursing Service - Nil.
24. Mutual assistance -)
25. Provincial War Room (Paper schemes
26. Information offices and) only.
war injury compensation schemes. (
27. Identity discs - Not clear whether these have been
received or not.
28. Repair of slightly - Paper scheme.
damaged buildings.
- 29 & 30. Paper schemes only, for clearance of debris,
demolition and animals. - Classification pink.
36. Telephone equipment for report - No reduction is
and control centres. possible under this
item.
37. Sirens - No change.
38. Ambulance vehicles - Collector & Residency Surgeon to
consider if any can be reduced.
39. Vehicles - Ditto.
40. Trailer pumps - Commissioner of Police will report if
any can be spared.
41. Hose - Commissioner of Police says 10,000 feet must be
indented for, otherwise fire fighting appliances
are useless.
42. - Noted.
- 43.-44 - We are not concerned.
